Hardware and Software Requirements

SERVER (Required with Multi-User Module)			
Equipment	**Minimum**	**Average Use**	**Higher Performances**
Computer	Shared desktop computer (not recommended)	Dedicated desktop computer (lower performance)	Server type computer (recommended)
Operating System*	**Windows operating system required**		
	Windows 7 Pro, 8 Pro, 8.1 Pro, 10 Pro, 11 Pro for desktop computer		Windows Server 2008 / 2012 / 2012 R2 / 2016 / 2019 / 2022
Random Access Memory	4 GB (minimum requirement with SQL Express)	8 GB (minimum requirement with SQL Express)	12 GB (minimum requirement with Standard SQL)
Disk Space	20 GB of free disk space (minimum requirement) May vary according to the data and documents		
Netword Interface Card	Link 100 Mbps	Link 1 Gbps (recommended)	
Hard Disks	SATA type	SAS type (recommended)	SSD type
Processor	Intel Core i5 / Core i7 or equivalent *(Celeron brand not recommended)*		Intel Xeon or equivalent
SQL Server*	SQL Server Express		SQL Server Standard

WORKSTATIONS		
Equipment	**Network**	**Single Workstation** (without Multi-User Module)
Computer	Desktop computer or laptop	
Operating System*	Windows Vista Pro, 7 Pro, 8 Pro, 8.1 Pro, 10 Pro, 11 Pro	Windows 7 Pro, 8 Pro, 8.1 Pro, 10 Pro, 11 Pro
	Macintosh use: contact us	
Random Access Memory	2 GB (minimum recommended)	4 GB (minimum recommended)
Disk Space	Not applicable	20 GB (minimum recommended)
Netword Interface Card	Link 100 Mbps (minimum) Link 1 Gbps (recommended) *Logilys does not support the use of Wireless network)*	Network link with Internet connection
Processor	Intel Core i3 / Core i5 / Core i7 or equivalent *(Celeron brand is not recommended)*	
SQL Server*	Not applicable	SQL Server Express

* Operating Systems and SQL Versions Compatibility Table							
Operating Systems	**2012** SP4	**2014** SP1	**2016**[1] SP2	**2017**[1]	**2019**	**Express**	**Standard**
Windows 8 Pro, 8.1 Pro	X	X	X	X		R	R
Windows 10 Pro, 11 Pro	X	X	X	X	X	R	R
Windows Server 2012 / 2012 R2	X	X	X	X		S	R
Windows Server 2016 (or newer)		X	X	X	X	S	R

[1] Only with 64 bits operating systems.   X=Compatible   R=Recommended edition   S=Supported edition

We're developing **your full potential**

OTHER FEATURES	
Printer	Laser printer recommended for letters, receipts, reports, etc.
Internet Connection	High speed Internet is highly recommended for remote technical support and downloading new versions
Backup System	Backup system required or Backup Synchronization

Software to be installed upon server or non-network workstation:

Provided by Logilys:
- **Microsoft SQL Server 2012 Express OR Microsoft SQL Server 2014 Express OR Microsoft SQL Server 2016 Express OR Microsoft SQL Server 2017 Express OR Microsoft SQL Server 2019 Express**
- **Microsoft.NET framework**
- **Windows Installer**
- **Logilys System**

Not included, but recommended for installation with more than 5 concurrent users:
- **Microsoft SQL Server 2012 Standard OR Microsoft SQL Server 2014 Standard OR Microsoft SQL Server 2016 Standard OR Microsoft SQL Server 2017 Standard OR Microsoft SQL Server 2019 Standard**

**Software to be installed upon workstations** (not included):
- **Microsoft Office Word**
- **Microsoft Office Excel**

Logilys' applications are compatible with Microsoft Office 365 but require Microsoft Office Word and Microsoft Office Excel to be installed locally on workstations. **Microsoft Office 2010 (or newer) installed using "Click-to-run technology", as well as Microsoft Office "Starter 2010" (or newer) DO NOT CONTAIN THE FEATURES REQUIRED FOR MASS MAILING and cannot be used with ProDon.**

SUPPORTED TYPES OF INSTALLATION
1- A Single Workstation (Lite or Standard License, WITHOUT the Multi-User Module)

This is the simplest type of installation. The SQL server and the application both reside on the same machine (workstation). This type of installation is recommended if you are using the lite or standard license of the Logilys application, without the multi-user module, and you do not have any server available to host it.

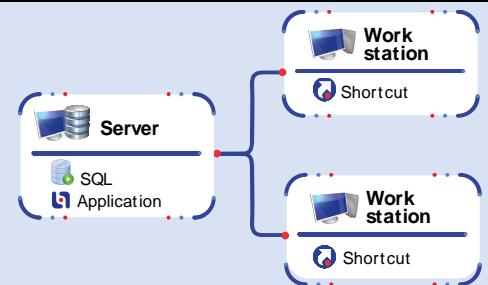

2- With Server (Lite or Standard License)

The network installation with server is the most common type of installation.
The SQL server and the application both reside on the same machine, allowing all the workstations to access the Logilys application from a shortcut.
This type of installation is recommended if you are using the lite or standard license of the Logilys application, and you have a server that can host the SQL server and the application.
CAUTION! The installation with server (2 or 3) is required if you have the multi-user module.

3- With Distinct SQL and Application Servers

To be used if your environment includes a data server and an application server and you wish to install the SQL server and the application server on them respectively.
All workstations can access the Logilys application from a shortcut.
